Selected New Photos at Containership-Info

On the next few pages you will find a selection of container ship photos recently uploaded to **www.containership-info.com**.

Please note that the pictures in the pdf-file are reduced in size and saved as low-quality jpg files. In order to view the actual pictures as well as vessel data sheets and additional photos of the ships displayed here, please go to our website's vessel galleries.

The editors of containership-info are always on the lookout for quality photos of vessels that are still without a photo on the respective vessel page. We greatly appreciate your image contributions. Please read our "Note to Contributors" pdf file to find out what type of photograph we need and how you can perhaps help. The file can be obtained from containership-info's "miscellaneous downloads" section.

We gratefully acknowledge the help of the photographers who supplied images for this week's picture upload.
