

Containership-Info

October 2012, 41st week

+ + + Vessel Photo Update Log + + +

Selected New Photos at Containership-Info

On the next few pages you will find a selection of container ship photos recently uploaded to **www.containership-info.com**.

Please note that the pictures in the pdf-file are reduced in size and saved as low-quality jpg files. In order to view the actual pictures as well as vessel data sheets and additional photos of the ships displayed here, please go to our website's vessel galleries.

The editors of containership-info are always on the lookout for quality photos of vessels that are still without a photo on the respective vessel page. We greatly appreciate your image contributions. Please read our "Note to Contributors" pdf file to find out what type of photograph we need and how you can perhaps help. The file can be obtained from containership-info's "miscellaneous downloads" section.

We gratefully acknowledge the help of the photographers who supplied images for this week's picture upload.

The photo copyright of the below pictures is held by the original photographers, not necessarily by the editors of containership-info.

The first pictures of CMA CGM's new CMA CGM MARCO POLO, the largest container ship in the world. The 16,000 teu ship...

...and its sister vessel CMA CGM VASCO DA GAMA are presently under outfitting at DSME shipyard at Okpo, South Korea.

APL LATVIA is the first ship of a new type from Imabari's Koyo dockyard at Mihara, Japan. Designed with a similar hull than...

...Mitsui OSK's Koyo-built MOL COSMOS-classes, this new type features an all new deckhouse with distinctive bridge wings.
